Oklahoma State University Institute of Technology Institutional Fact Book

The information contained in the Institutional Fact Book is collected from several Oklahoma State University Institute of Technology (OSUIT) offices. The enrollment data are based on the preliminary data stored after the last day to drop courses with no grade record which is traditionally the end of the second week of classes. The retention, graduation rates, and degrees awarded information is based on end-of-term data. The faculty information is provided by the Human Resources Office, the financial information is provided by the Accounting department, and the library holdings information is provided by the OSUIT Library.

OSUIT has shown a decrease in enrollment for several fall terms. Beginning with fall 2014, the decreases were mainly caused by the College of the Muscogee Nation becoming more self-sufficient with new HLC accreditation and with the Oklahoma State Regents for Higher Education restructuring of the cooperative alliance program with the Oklahoma Technology Centers.

Please note that, to the extent possible, the data presented on the following pages represent snapshots taken at the same time of the academic year. In some instances, however, variations in reporting cycles have limited our ability to do so. For this reason, the reader who attempts to cross-reference certain data tables may find discrepancies which may not be due to inaccuracies in the data.

Additional copies may be printed or downloaded from the OSUIT Institutional Research website (osuit.edu/research/).

Financial Facts

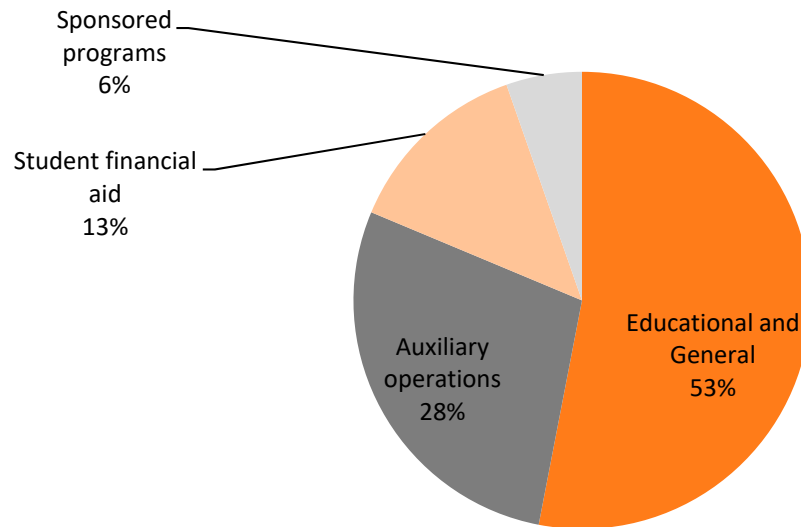

The financial information reported here includes the planned sources and uses of funds for the twelve months ending June 30, 2020.

Revenue \$55,514,191

State appropriations are more than the prior year and are approximately the same as they were in fiscal year 1996, twenty-four years ago. Some new academic service fees were instituted so revenue from tuition and fees is expected to be more this fiscal year than the past fiscal year. The new academic service fees are intended to make the amount a student pays for a course be closer to the actual cost of the course.

Expenditures \$55,514,191

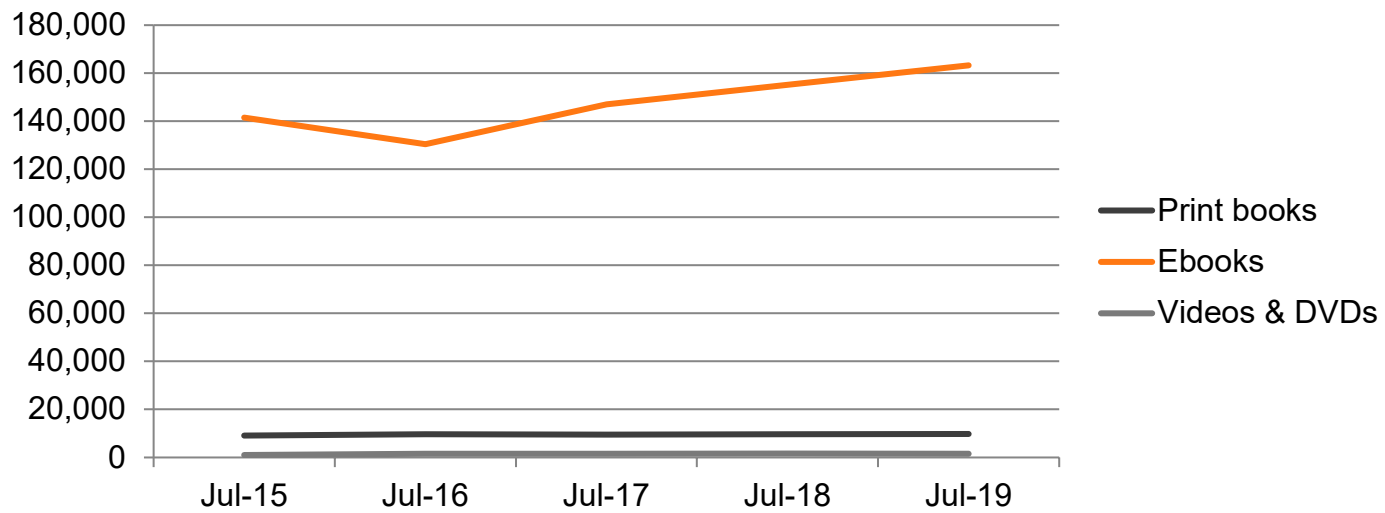

The budget is comprised primarily of the Educational and General budget. This portion of the expenditures are for educational mission of the university. The categories of expenditures include instruction and academic, student and institutional support. Auxiliary operations are another major portion of the budget. Auxiliary operations provide housing, food services, bookstore and other activities for students. Student financial aid and sponsored programs (grants) complete the planned expenditures.

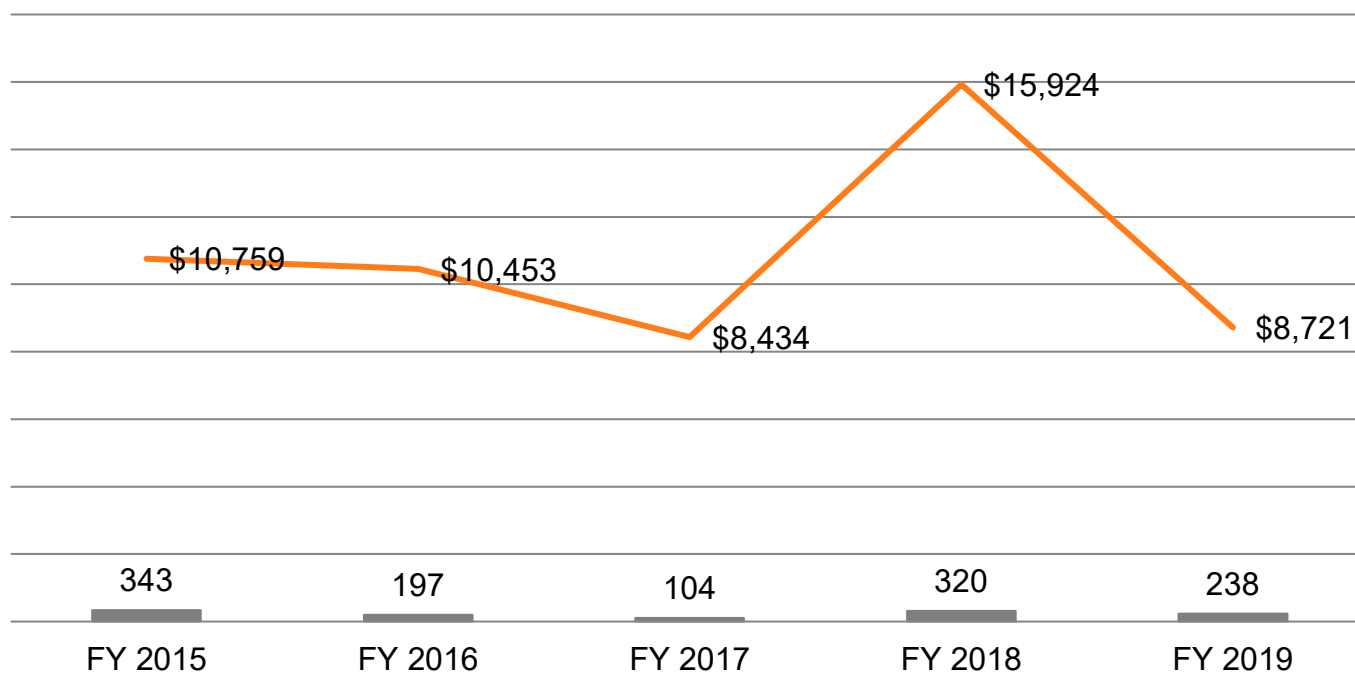

Payroll is the largest component of the budget. The university's payroll and associated benefits are estimated to be \$23,102,400 for the fiscal year that ends June 30, 2020. This is a reduction from the prior fiscal year. The remaining planned expenditures are supplies, utilities, student financial aid and maintenance of the facilities.
