Transfer-in Report 2019

March 2019

Oklahoma State University Institute of Technology
Okmulgee, Oklahoma

OSUIT Office of Institutional Research

Executive Summary

Introduction

Students in higher education transfer for a variety of reasons including changing majors, changing careers, and changing life situations, among others. Although Oklahoma State University Institute of Technology (OSUIT) has a number of articulation agreements with other state colleges and universities, the process of transferring from one institution to another is not always executed smoothly, particularly from the student's perspective. The OSUIT Office of Institutional Research continues to seek feedback from students transferring in to identify strengths and challenges in the transfer process.

The Transfer-In Feedback Form (Appendix F) is a self-report instrument that addresses the perceptions of students entering OSUIT from other higher-ed institutions and the transfer process as currently administered by the areas included under the Division of Student Services. This survey also aligns with the Student Services satisfaction scale used in other surveys on the OSUIT campus. Results yield information useful in addressing the perceptions of students and their satisfaction with the transfer process.

Note that, unless otherwise specified, data is listed by the year of the report, for example: Report year 2019 is based on data for students who transferred to OSUIT in the fall semester of 2018; data tables for the past four years are reported as 2016-2019, and these tables encompass data from fall semesters 2015-2018.

Method

The sample for this fourth annual administration of the Transfer-In Feedback Form consisted of students who transferred to OSUIT in the fall semester of 2018 and, typically, from other post-secondary institutions. Because the administration format is online, the sample only included students with a valid email address on file. In total, 227 new transfers were invited to participate. The survey opened with an email invitation sent on 01/04/2019 and closed on 03/01/2019 with 54 responses for a participation rate of 23.8%.

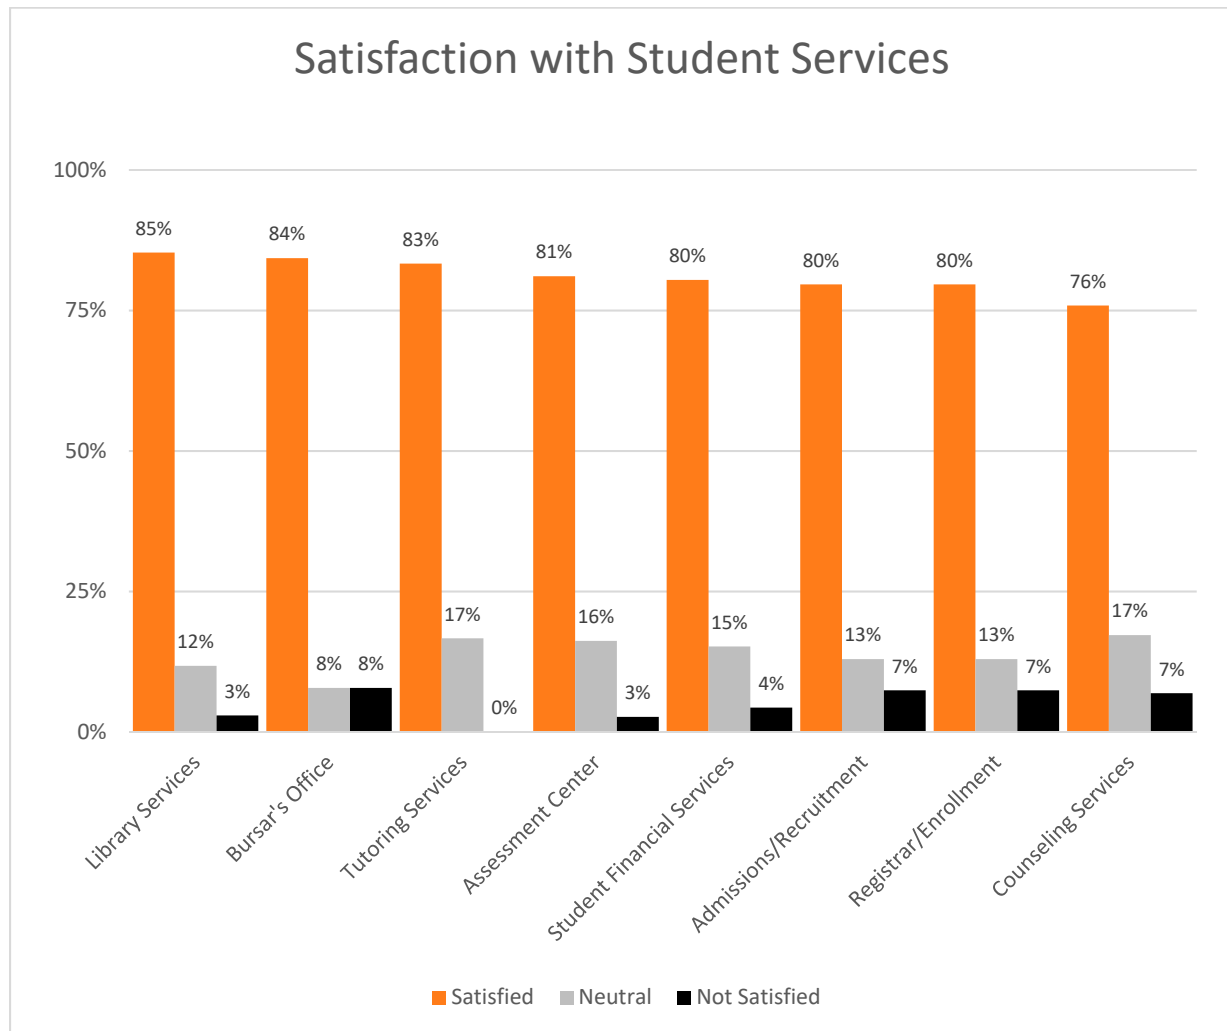

Results

The median age of students transferring in to OSUIT was 26; 23 (42.6%) were female, 30 (55.6%) were male, with one (1.8%) not reporting age or gender (appendix A). Tulsa Community College yielded the largest number of transfers into OSUIT in fall 2018 with nine students (see appendix C for comprehensive list of most recent transfer feeder institutions for years 2016-2019). General findings from the 2019 data revealed the following (see appendix D for detailed responses covering years 2016-2019):

- 17 (31.5%) earned a degree prior to their transfers to OSUIT.
- 14 (25.9%) earned associate-level degrees, and four (7.4%) earned bachelor-level degrees prior to their transfer to OSUIT.
- 31 (57.4%) reported the transfer process took less than a month.
- 12 (22.2%) reported difficulty transferring their general education classes.
- 9 (16.7%) reported difficulty transferring classes specific to their majors.

- 41 (75.9%) were satisfied with information from OSUIT on requirements and processes.
- 41 (75.9%) were satisfied with transfer assistance received from OSUIT.
- 37 (68.5%) were satisfied with the ease of the transfer process overall.

Because the Student Services area plays such an important role in the transfer process, data on student satisfaction with these services was gathered. However, while some student services are necessarily accessed by all students (ex., Admissions/Recruitment, Registrar/Enrollment), respondents reported other areas as “Not Applicable” to varying degrees. To get a better picture of the levels of satisfaction with student services, responses were reduced to three categories: *Satisfied*, *Neutral*, and *Not Satisfied*. The responses “Very Satisfied” and “Satisfied” were summed to create the *Satisfied* score; the responses “Dissatisfied” and “Very Dissatisfied” were summed to create the *Not Satisfied* score; note that non-respondents and *Not Applicable* responses were removed from this particular analysis (see appendix E for detailed responses covering years 2016-2019).

Students transferring to OSUIT reported satisfaction with student services ranging from 75.86% satisfied to 85.29% satisfied. Highest ratings for satisfaction were reported for Library Services (85.29%), Bursar's Office (84.31%), and Tutoring Services (83.33%). Lowest ratings for satisfaction were reported for Counseling Services (75.86%). However, the Transfer-In Feedback Form does not distinguish between mental health counseling and any other counseling services; and counseling may be perceived by students, formally or informally, in each of the Student Services areas. Revision of the Student Services scale, including a clearer definition for the reporting of Counseling Services, is recommended; this would benefit each survey that includes the Student Services Satisfaction scale.

The following appendices summarize four years of responses by transfer students at OSUIT. Appendix A includes *Gender* and *Age* data. Appendix B reports *Majors/Programs* of transfer students upon entry to OSUIT. Appendix C lists the *Most recent school transferred from*. Student perceptions of the *Transfer Process*, both pro and con, follow in Appendix D. Appendix E reports the results of scales measuring *Satisfaction with Student Services*. This report concludes in Appendix F with the *Transfer-In Feedback Form*.

As a reminder, tables list **report** years, so "2019" contains data for transfers into OSUIT for fall semester 2018.

Respectfully,

Curtis E. Miller, Analyst
OSUIT Institutional Research

What led you to transfer to OSUIT?

If there was one thing you could change about the transfer process, what would it be?

Do you have any advice for new transferring students?

Thank you for your time and your feedback! It is our privilege to provide both college-level career education in advancing technologies *and* general education for your future academic goals. Thank you for choosing to work with us in this endeavor. Best wishes!
