

OSU INSTITUTE OF TECHNOLOGY
POLICY & PROCEDURES

**Presentations to the Board by
Representatives of the Community**

**1-002
ADMINISTRATIVE
June 2013**

POLICY

- 1.01 The Board of Regents for Oklahoma Agricultural and Mechanical Colleges is vitally interested in all aspects of OSU Institute of Technology, both within classrooms and laboratories and in extra-curricular areas. The Board intends to keep well informed about problems, activities, and progress in all areas. To this end it can use reporting and ideas from a responsible student newspaper and other written media, plus official minutes and reports from faculty and student groups. However, the Board will continue to look to the President of this institution for official reporting on its activities, problems, and progress.
- 1.02 The Board is pleased that the President has regularly involved fellow administrators, faculty, and students in past presentations and believes the practice has merit since it can involve more of the total resources of the university.

PROCEDURES

- 2.01 The Board will continue to look to the President for decisions relative to matters brought before it. Accordingly, those faculty, staff, and students desiring to present matters to the Board should work through established administrative channels.
