## Approved Industry Credentials for the AAS in Applied Technology

Find your industry credential below to see how many transfer credits it carries toward the AAS in Applied Technology at OSUIT. Two indexes are provided: an alphabetical list by credential name, and a secondary index grouped by certifying organization for students who recall the issuing body more readily than the exact credential title.

Block credit hours are calculated as **total CareerTech program contact hours ÷ 40**, capped at 42 credits. Transfer credit is awarded only when the student has both completed an aligned CareerTech program **and** holds a current, valid version of the credential. The **Prefix** column indicates the block credit category under which the credit will appear on the OSUIT transcript. Final prefix assignment and credit total are confirmed through OSUIT advising and institutional review.

- BDPL** Business and Digital Technologies
- HHPL** Health and Human Services
- INPL** Industrial Technologies
- TTPL** Transportation Technologies
