GENERAL EDUCATION COURSE OFFERINGS

OSUIT's general education courses directly support the University's mission by contributing to the development of critical thinking, lifelong learners whose interpersonal and communication skills, problem-solving abilities, and knowledge of ethics prepare them to be productive employees and citizens.

Each program of study at OSUIT includes a core of required general education courses. These requirements vary by degree program and include coursework from subjects such as communications, humanities, math, science, history, and social and behavioral sciences. Students who are undecided about which program of study to declare can begin by taking general education courses and selecting a major later.

Courses used to fulfill general education requirements are identified by code letters. Students can find these code letters in the course description section of the catalog listed after the course number of relevant courses. The code letters designate the general education category for which the course may be used (see page 5 for more information).

- Analytical & Quantitative Thought (A)
- Humanities (H)
- Natural Sciences (N)
- Social & Behavioral Sciences (S)
- Diversity (D)
- International Dimension (I)
- Scientific Investigation (L)

Some degree plans require specific general education courses. If no particular course is listed, students may use any general education course with that designation.

Occasionally, students will transfer a course that appears to fulfill the criteria and goals for a general education course, but the transcript does not indicate a general education designation. The advisor may request a substitution for this course by submitting a Substitution Form and a course syllabus or course description to the Dean of Arts, Sciences & Health. If the request is approved, advisors should send a copy of the request to the Registrar's Office for processing.

OSUIT general education courses transfer to state colleges in Oklahoma as outlined by the OSRHE Transfer Matrix. For verification of transferability, visit <https://www.okhighered.org/CourseSearch/>.
